**European  
Juggling Convention**

**August 2–10, 2025. The Netherlands.**

# Welcome

...to the European Juggling Convention in Arnhem, the Netherlands!

Together, as the Dutch circus community, we have been organizing this 47th edition of the EJC for the past three years. We are honored that so many of you are here to enjoy the time together and share our passion for juggling and circus. For this EJC, we focused on getting the basics right, stimulating people to connect and deepen their knowledge, being way more sustainable, and, most importantly, doing it with the community in the spirit of WEJC!

We are very excited about the program that we realised for you this year. In particular, we are excited about the new elements we introduced such as the Circus Talks, Queer Night, European Youth Circus Convention, and riding your rented bike. Additionally, through the close collaboration of the city of Arnhem and its partners, we are able to visit the city twice and spread the circus spirit beyond the EJC site.

Overall, we hope this year's EJC will bring you new friends, skills, inspiration, and an experience to look back at for years to come.

## Welcome from the city of Arnhem

On behalf of the municipality of Arnhem, I warmly welcome all participants and visitors to the European Juggling Convention! Juggling is like life itself: it requires focus, balance, and the courage to fall and to get back up again. The more balls you keep in the air, the more important it is to keep enjoying yourself. Arnhem is proud to be the host of this vibrant event full of talent and connection. Enjoy the festival and let yourself be inspired!

City official Bob Roelofs

## Welcome from the EJA

Welcome to the EJC 2025! Firstly, a huge thank you to Arnhem for hosting us and to our incredible EJC 2025 team for their tireless work! To all jugglers, thank you for coming in such numbers!

You all create the EJC - not just through your participation, but also through your volunteering. This is not something to take for granted. So to everyone involved: we appreciate you! You make this event possible, by jugglers, for jugglers - truly a WEJC!

From the heart,  
Jonas  
President of the  
European Juggling Association

## First Aid

You can receive medical assistance at the First Aid station everyday from 10:00–01:00. Outside these hours, you can contact an EJC staff member for first aid assistance, recognisable by the orange t-shirts or a security staff member at the camping and festival village badge control points. In case of a critical emergency, call 112 immediately before notifying EJC staff.

# Safeguarding

During this EJC we're being more vigilant of creating a safer space for everyone attending.

## What is safeguarding?

Safeguarding is an effort driven by volunteers that aims to promote a safer experience for members of the EJC Community, particularly those who are most vulnerable. We're not here to punish people having fun, but if protecting the community means intervening, we do have some power in that regard.

## Who is part of safeguarding?

Everyone is a part of the safeguarding effort, because we are all part of the community! Our team includes volunteers from the EJA and the juggling and broader circus art community. We provide special training and are able to answer questions and take reports regarding inappropriate behavior. You can find us in the Purple high-visibility vests and in the safeguarding space.

## How can I help?

Good question! For more information on how to actively help, come find the safeguarding team at the convention. Please also help us by being more conscious of communication and behaviour like respecting consent and boundaries.

## Perceptions - Cie Bivouac

Sunday, August 3

16:30 - 17:30

location

Perceptions is a journey to the heart of the quantum imagery where the infinitely large meets the infinitely small. Equations unfold on a diffracted structure revealing unknown elementary particles, a relative space and time, parallel dimensions... A reality usually invisible to the eye emerges slowly in the ocular eye. As the exploration of men evolves, the suspended world is transformed and becomes unpredictable. The strings vibrate, the material gravitates and diffracts, letting the void exist. An invitation to dream of other realities.

“Vårved” is a teeterboard performance that explores trust, transformation, and the artist’s relationships through the collective act of constructing with wood. Set in a shifting landscape of planks and with a wooden teeterboard, the performers navigate moments of conflict and cooperation together and reflect on their sibling-like bond. Through both success and failure, the wooden scenography evolves and becomes both obstacle and instrument, constantly growing, decaying and transforming.

Square Two is a journey of discovery into a wonderful world of patterns that offers a completely new perspective on juggling, visual art and your environment. Thursday, August 7

20:00-21:00

Gala Tent

This contemporary circus show, featuring 8 of the world's most talented diabolists, questions the place of the individual in the collective and offers an immersion into the singular universe of each artist. Firstly, the show will introduce the artists in an atmosphere that is sometimes serious but often tinged with humor, offering a nuanced look at the themes addressed. This part reveals both the artists' personal research and the questions that inhabit them. Then, the show presents a collective choreography carried by Ravel's Boléro. Even if the risk-taking is limited, it does not aim for a perfectly symmetrical and synchronized execution, but allows the small defects and rough edges that give it all its authenticity and humanity to live on; making it sensitive and moving.

Slackline Area

For the first time at the EJC, the highline becomes a stage for live music, freestyle acrobatics, and airborne absurdities. French trio Houle Douce invites you to a 15-minute open-air performance full of elegance, mischief, and altitude. Expect neck-craning, toe-tapping, and moments hovering between balance and chaos.

We have invited the best artists from all over the world, as well as from our own region to deliver a diverse mix of innovative surprises with representation from many corners of our amazing community. If you have not yet, you can buy your gala show ticket at central point.

# Areas

## Orange, Blue, Pink and Yellow hall

In these halls, everyone is free to practice their own disciplines, follow workshops, or just hang out.

## Acro & Aerial Green halls

In addition to juggling halls, there will also be separate acrobatics and aerial halls. The Acrobatics Green hall will be equipped with mats to allow for safe and effective training. This room is about 600 square meters—so large enough for proper training. The Aerial Green hall will have lots of rigging points where the EJC will provide aerial equipment. If you want to rig your own material you have to discuss this with the floor manager. The aerial hall is open from 10:00 to 22:00.

## Passing Zone

Come and visit the passing zone! There will be a space for passers of all levels to learn new tricks, participate in workshops, find other passers, and make some friends. At every workshop, you will be able to collect a badge so make sure to collect them all!

## Fire & Flow Space

Get ready for some sparks and talent at the fire space. During the day, this will be the flow space where you can come to relax, have fun, and enjoy the music. If the weather allows it, you will be able to use and train with fire in the evenings. Additionally, there will be a fire open stage, a fire renegade, a children's open stage, and fire games... Don't miss out!

Note: We cannot guarantee if and to what extent it will be possible to use fire depending on the weather and fire hazards. We will communicate the regulations day by day.

# Unicycle space

The unicycle space will be equipped with some fun obstacles and pallets to practice your unicycle skills. In the surrounding forests, there will be a unicycle route for anyone who would like to take their cycling skills outside the space.

# Highline & Slackline

Learn how to highline at the EJC2025! Three highlines (slacklines 15m from the ground) will be available for balance lovers not scared of heights or brave enough to conquer their fears. In case heights are not your thing (yet), but you still want to slack, you can try many different slacklines in the slackpark right under the lines. Get inspired by professional slackliners performing with crazy tricks and shows, follow the daily high- and slackline workshops and improve your balance!
